OUTLINE

FB35L is a 0.35mm pitch board to FPC connector with a stacking height of 0.7mm, space-saving design with a depth of 1.9mm. Each connector has two tabs that also serve as power contacts with each having capability of supporting 3A of current, which can reduce the number of overall connections, the size of your device and the cost associated with reduced board space. FB35L has high contact reliability with 2-points contact and also provides high strength from Metal-cap structure.

FEATURES

- Stacking height 0.7mm
- Pitch 0.35mm
- Depth (with mating condition) 1.9mm
- Available pin counts 50,56
- Good click feel when connectors is mated.
- The tabs serve as power contacts with up to 3A current available in each of two pins, which allows for more efficient use of the available connection pins.
